

Re-Imagining Photoshop - The AI Editor of 2030

User Personas

Persona 1 — The Social Media Creator

Age Range: 18–30

Profile: Influencers, vloggers, travel/lifestyle creators

Tech Comfort: High

Devices: Mobile-first (iPhone/Android), tablets

Usage Frequency: Daily

Goals

- Create aesthetic, high-quality posts quickly
- Remove unwanted objects from photos
- Produce unique visuals (concert styles, remixes, fantasy edits)
- Resize photos for multiple platforms

Pain Points

- Time-consuming manual edits
- Difficulty maintaining consistent visual themes
- Limited advanced editing skills
- Switching between apps for simple tasks

How Photoshop 2030 Helps

- One-tap object removal and scene cleanup
- Repositioning objects for perfect compositions
- Recoloring clothes/objects with prompts
- Voice-based style transfer for creative variations
- Instant aspect ratio presets (1:1, 9:16, 4:5)

Persona 2 — The E-Commerce Product Visual Manager

Age Range: 25–40

Profile: Marketplace sellers, D2C brand teams, catalog managers

Tech Comfort: Medium

Devices: Laptop/Desktop

Usage Frequency: 3–5 times weekly

Goals

- Produce clean, consistent product visuals
- Change product colors or backgrounds without re-shooting
- Maintain uniform sizing across catalogs
- Quickly prepare images for Amazon/Flipkart listings

Pain Points

- Expensive and repeated product photoshoots
- Manual editing skills are limited
- Difficult to create multiple product variations
- Resizing images for different marketplaces is tedious

How Photoshop 2030 Helps

- Background cleanup and erasure in seconds
- Product recoloring via selective inpaint
- Moving product placements to create multiple layouts
- Standardized aspect ratio templates for marketplaces
